VIEWING THE HENS

LARGE ATTENDANCE AT YESTERDAY'S POULTRY EXHIBITION.

Many Birds of Feather Flocked Together in the Getto Block—Visiting Exhibitors Pronounce the Exhibition the Best Ever Held in the State of Kansas.

The second day of the show of the Southern Kansas Poultry association was a pronounced success. The attendance was splendid which is highly encouraging to the association.

The number and character of the fowls on exhibit is much better than at any previous show of the association, and visiting poultry men think it is the best display ever held in the state.

Every variety of domestic bird from a country to a turkey is on exhibition, the pigeon display being exceptionally good.

The people of Wichita are taking great interest in thoroughbred poultry and among the exhibitors are many prominent people of this city. Everybody finds interest in a poultry show. It is, in this respect, something like a chrysanthemum fair, and, by the way, some of the ladies who were most interested in the birds yesterday were those who took the most delight in the recent flower show.

The show will continue the remainder of the week and it is to be hoped that the attendance will be large each day.

The judge of the display will be Hon. B. N. Pierce of Indianapolis, who is editor of the Poultry Gazette and one of the best posted men on bird pedicure there is in the United States. The following is a list of the exhibitors who have arrived so far:

Barred Plymouth Rocks—M. B. Keagy, Wellington, 4 birds; Mrs. M. E. Davis, city, 6; Joseph Postlewhite, city, 3; John Herr, Denver, 2; A. S. Smith, North Topeka, 9; H. A. Wattle, Bayview, 4.

R. S. Stewart of this city enters nine varieties of fancy pigeons.

Mrs. J. P. Kenworth, Wichita, enters two cages of Canary birds.

Thomas Owen, editor and proprietor of the Western Poultry Breeder, Topeka, is attending the show and is much pleased with it.

E. D. Stratford of the Butler County Citizen is strictly in it, being a great admirer of blooded fowls. His wife has many birds entered for competition in nearly all the varieties.

Mr. Owen, Mr. Stratford and Mr. Pierce all speak in flattering terms of the exhibit.

COUNCIL MET.

Brick Paving Took Up Most of the Time of the Body.

The city council met last night in a session adjourned from the previous night. President Caswell occupied the chair, and there were present all the councilmen except Johnson and Hill.

On petition of Mr. Roach, the taxes on lot 64, East Douglas avenue, amounting to \$74, were related, as the property was condemned by the city for the purpose of opening a street.

On motion of Councilman Horner, the Fort Scott road was ordered to put in crossings on Market street north of Thirteenth.

On motion of Councilman Horner the electric light company and the electric light companies were ordered to remove all unused poles in thirty days, and if not, the city street foreman remove them at their expense.

On motion of Councilman Farley it was ordered that all trees hereafter cut down along streets and alleys be done by the street force under the supervision of the street commissioner.

This is to be done for the purpose of avoiding the wreckage of the electric light and other wires.

On motion bids were opened for the paving of the unfinished sidewalks on Main and Market streets. Mr. Farley advocated giving the contract to Mr. Kepley of Topeka, as, through a mistake, it had been awarded to him already, without specifications being on file.

Mr. Farley argued that as Kepley had once bid, the other contractors knew what his bid was and, therefore, took advantage of it. He thought, therefore, that if the bid was not given to Mr. Kepley that that gentleman could sue the city and recover damages. City Attorney Myatt gave it as his opinion that Mr. Kepley could not recover damages, as the proceedings under which the former bid was awarded to him was illegal.

Others thought that inasmuch as Mr. Kepley had ordered brick from Shawnee county that the bid should be given to him, although it was not quite the lowest bid, it was accepted, and so did Burton, and on the question being put these two gentlemen voted no and the other seven aye.

On motion of McCall a sidewalk was ordered put in on the south side of William street, between the city building and Market street, at the expense of the city.

On motion of McCall money was given the fire committee and fire marshal to purchase helmets and rubber coats for the firemen.

An ordinance was passed making an appropriation to pay for certain property for the opening of streets, title to which had been perfected.

Adjourned.

NARROW ESCAPE.

A Passenger Train Bears Down on a Street Car and its Occupants.

Passengers on the street cars from College Hill yesterday afternoon were narrowly escaped a serious accident. As the car approached the Santa Fe track, a freight train was passing. Of course the car stopped. The only difference a street car ever manifests is to a railway train.

As soon as the way was clear the car proceeded on its way with its precious freight. It was precisely the same with pretty women. When it was exactly on the main track the trolley came off. On looking out the ladies discovered a passenger train bearing down on the defenceless street car. The agility and dimity displayed was wonderful. A reporter heard them relating their experience to their friends. The train was stopped in time to avoid a wreck.

AMUSEMENTS.

PATTI ROSA.

Patti Rosa, brightest and best of all in her line, comes to the Grand tonight and will be seen in "Miss Dixie," the most pleasing and successful play of her merry career. Her host of admirers here will assuredly be out in force to give welcome to their favorite. The subject of the play assumes the interest and proportions of an amusement event. The bright little star will have many new features to introduce, and will regale her friends with new and catchy songs.

Her company is, as usual, up to the highest standard, and as to herself, it will serve to verify what was said of her by a prominent critic: "Of the star, it can truthfully be said that she is not the Patti Rosa of yore. She is not the Patti Rosa of last season. Her singing is better, her dancing is better, her acting is better, and her general demeanor more attractive than ever before. There is more rhythm and dash about her pranks and hyperbolic activities, and every vestige of crudity has disappeared. The enthusiastic poet who styled her 'The Peerless Patti Rosa' some years ago was a trifle extravagant, but she is reaching the point where his song seems to have been merely prophetic."

As the house will assuredly be filled, it is suggested that the early purchase of reserved seats will be the part of wisdom.

DR. JERYL AND MR. HYDE.

Our intellectual people will not miss hearing Dr. Nourse, in his lecture on Friday evening in the First Presbyterian church, the second entertainment in the Y. P. S. C. E. lecture course. See what the Chronicle of San Francisco, (Cal.) has to say of him:

No secular address from the platform of this city was ever more enjoyed. Robert Lewis Stevenson's famous story was first given in synopsis from the objective point of view. Then the lecture began—powerful, eloquent, thoughtful—with the text, "It depends on the man." The dual nature of humanity was discussed, and the effect of evil influences on the greater side of the soul was shown. The subject of the story was taken up, and with forceful dramatic vigor the lecturer presented Mr. Hyde's view of Dr. Jekyll to the audience. Many of our best citizens went to the platform to congratulate the orator, among whom was General O. O. Howard, who pronounced it the greatest human utterance he had ever heard.

CHRISTMAS FESTIVAL.

The opening evening of the Christmas festival given by the young people's church of the St. John church will occur tomorrow evening in the Valley block over 213 North Main street. This will be the military evening and one of the attractions will be the exhibition drill by the Wichita light infantry in full dress uniform.

The program for Friday evening will be one of the best ever given in the city, being entirely under the management of Miss Matilda Leavenworth and Mrs. Nellie Hobbs Smyth, assisted by Mrs. Atkins of Hutchinson.

For all lovers of Scotch poetry and music Saturday evening will be a great attraction. The narrative will give an explanation and history of the different selections as they come on the program.

The young people of St. John's church have made every effort to get up an attractive program and to the credit of their taste let it be said that they have succeeded admirably. It will speak for itself in tomorrow's issue.

Moran's brothers, Dr. Joseph, had an order for two cars of hogs killed at the stock yards yesterday.

FIREBUGS AT WORK

INCENDIARIES SET FIRE TO A WHOLESALE LIQUOR HOUSE.

Timely Arrival of the Fire Department Averts What Might Have Been a Frightful Holocaust—In Five Minutes More the Building Would be in Ruins.

The fire flood visited the Butler block on South Main street last night about 9:30 and were it not for the timely arrival of the fire department that entire building might have been in ruins now.

It was an undeniable case of incendiaryism as is shown by the careful methods adopted in giving the fire a good start.

The particular room in which the fire was located is that occupied by Richardson & Co. as a wholesale liquor house. King alcohol was in close quarters and whoever it was that started the fire was evidently figuring on having a big blaze, as there were several barrels of all kinds of liquor stored there.

Entry was made by the back door which was still wide open when the fire department arrived.

The straw covers used in the wrapping of wine bottles were packed away in the barrels in four different parts of the room, and each place was set on fire. In one or two of the places the barrels were badly charred and if five minutes more had elapsed before the discovery the liquor would be on fire and there would be hardly any possible show for saving the building. If the front door had been opened instead of the back door the draft would be in the opposite direction and the discovery could not have been made in time to save the building.

Laughing is almost too good for the man who would fire such a building, not on account of the liquor it contained but on account of that which is a million times more precious—human life. The entire upper portion of the Butler block is occupied as residences and with such a fire as the liquor stored in the building would make there would hardly be an escape for the people who lived in the upper stories, who are practically women and children.

There was also some hay in the back part of the building which would still further give impetus to the flames had they once started.

Some parties are suspected of the crime and it is not improbable that some arrests will follow.

IN THE PROBATE COURT.

License issued, Insanity Case Filed, Wills Revoked, Etc.

George F. Phillips, Clearwater and Mary J. Wallace, Wichita, were granted a marriage license yesterday.

Petition of J. A. Wallace was filed for an order to pay his demand on the estate of W. R. Sullivan.

Proof of service of citation made and filed with Adam Wilkins, guardian of the estate of the R. K. Smith minors.

Last will of Caroline Olmstead was received and filed and a receipt given for the same.

In the matter of the condition of Joseph Fish, an affidavit of insanity was filed and the case set for hearing Dec. 14, 1933, at 2 o'clock p. m. A warrant was issued to bring Fish into court. This is the man who attempted suicide by cutting his throat at the poor farm last week, an account of which appeared in the EAGLE.

An affidavit of insanity was filed in the case of Thomas Irwin, and the case set for Dec. 14, 1933, at 2 o'clock. This unfortunate man has been confined in the county jail since the 7th day of November, and was taken in the hope that he might recover somewhat, but his friends have lost faith in the treatment he has received and will endeavor to get him removed to the asylum.

At 6:30 o'clock last night, as Fred Hummel, the special delivery clerk at the postoffice, was riding north on Lawrence avenue, he met E. J. Feast driving south, just about opposite Dr. Feast's residence. Fred's pony is moon-eyed, or has some other affliction. Anyhow the electric light does him up. He is liable to run over anybody or against anything. He reared up and walked all over Mr. Feast's horse, to his great alarm and disgust. He tried to control Mr. Feast's pony. When the horse got to Mrs. Feast and his little girl got out. There was Mrs. Feast's room for all. Fred was endeavoring, of course, to control his pony, but when he got into the photon Fred fell off, and in falling struck the wheel and cut his lips and chin badly—so badly that six stitches were necessary to put it together. Fred was taken into Dr. McCoy's house, where he and Dr. St. John took care of him, and then Dr. St. John took him home.

Mr. Feast was handicapped and otherwise repaired his broken and demoralized buggy, which suffered a broken bottom, a twisted shaft and numerous severe scratches.

Fred will put in a requisition to Uncle Sam for goggles for his pony, to avoid further mishaps.

NORMAL SCHOOL ENTERTAINMENT.

An entertainment will be given in the Y. M. C. A. building Tuesday, Dec. 19. The students of the Wichita Normal school and the pupils from the practice schools assisted by the graduates of the schools for the purpose of raising money to purchase a piano for the Normal school. The program will be varied and will consist of instrumental and vocal music, together with recitations in character, and the presentation of Jean Logie's beautiful poem "The Song of Seven."

WE HAVE THE PHOTOGRAPHS.
